Description

Product Description

Geometrical - Honeycomb Scatter / Hexagon Mosaic
A free-flowing diagonal drift of hexagons on an ivory textured field. Not a strict grid - it's an organic mosaic, perfect for adding movement without overwhelming the space.

Crafted by our Bhadohi artisan cluster, Tessella celebrates Heritage Modern Fusion. Each hexagon is hand-tufted knot by knot, then the ivory field is hand-carved at 45° to create a subtle 3D contour that catches light.

Key Features

Architectural Geometric Pattern: An intersecting framework of open square and rectangular paths that adds structure and visual intrigue to any room.

Ribbed Linework Detail: The charcoal lines feature an intricate, multi-tonal ribbed texture that prevents the pattern from looking heavy or flat.

High-Contrast Sophistication: A crisp ivory/beige base contrasted with charcoal and soft slate gray lines for a versatile, timeless color palette.

Artisan Craftsmanship: Woven with the meticulous attention to detail and premium materials that define *The Woven Legacy* collection.

Styling Tips

The Bauhaus Edit: Complement the strong linework with Bauhaus-inspired chrome-framed chairs, glass coffee tables, and minimalist monochrome decor.

Soft Modern Contrast: Balance the rug's sharp right angles by layering in plush, rounded furniture—like a curved cream sofa or circular side tables—to create a harmonious design language.
